

## Mohamed Hebishy – Fullstack Engineer

### Personal Information

- Location: Cairo, Egypt
- Email: devmohamedhebishy@gmail.com
- Phone: +201100674387
- Military Status: Exempted
- GitHub: [github.com/Mohamedhebishy-dev](https://github.com/Mohamedhebishy-dev)
- LinkedIn: [linkedin.com/in/mohamed-hebishy-a2876430b](https://linkedin.com/in/mohamed-hebishy-a2876430b)

### Professional Summary

Fullstack/Backend Engineer with practical experience in PHP, Laravel, ASP.NET Core MVC, MySQL, and Clean Architecture. Skilled in applying OOP, SOLID, and Domain-Driven Design to build scalable and maintainable systems. Developed multiple real-world projects, including a full Military Blog CMS as a graduation project. Passionate about backend development, problem-solving, and writing clean, maintainable code.

### Education

Bachelor's Degree – Management Information Systems (MIS)  
Higher Institute for Commercial Sciences, Mahalla  
Class of 2025 — Grade: Very Good

### Work Experience

#### Freelance

- **Professional E-commerce and Admin System:** Designed and implemented a robust e-commerce platform using Laravel and Livewire, complete with an integrated, high-performance content and order management panel built on FilamentPHP.
- **Influencer Sales and Booking Platform:** Developed a clear, modern platform for a digital influencer to manage product sales, course enrollments, and an integrated consultation scheduling system using the TALL stack.
- **Personal Portfolio Website (Current):** Created this fully responsive, dual-language (AR/EN) portfolio site, applying modern Glassmorphism design principles and demonstrating expertise in Tailwind CSS and dynamic JavaScript.

### Training

National Telecommunications Institute (NTI)  
Backend Training – PHP, MySQL, Laravel  
Duration: 22/10/2025 – 31/12/2025

Puresoft Software House  
Backend Training – PHP, MySQL, Laravel  
Duration: 13/11/2025 – 31/12/2025

## Projects

### Blog CMS (Graduation Project)

- Built using ASP.NET Core MVC following Clean Architecture + DDD.
- Features: Category management, role & permission system, article publishing workflow, and comments module.
- Implemented Repository Pattern + SQL Server + full admin dashboard.
